

DART

**COMPANY
PROFILE**

Defend against the most advanced cyber attacks with us

We provide cutting-edge training and mentorship services to help you build a cyber resilient organization. Deploying trainers with extensive experience in highly complex environments, DART brings a combat-proven approach to training to prepare you for even the most sophisticated threats.

OUR SOLUTIONS

CYBER SKILLS TRAINING

We provide advanced cyber training that is tailored to your organizational needs.

REAL WORLD EXPERIENCE

TAILOR-MADE CURRICULUM

HANDS-ON LEARNING

TOP-TIER INSTRUCTORS

Our trainers have significant operational and training experience in top cybersecurity units from Elite Intelligence Units and top cybersecurity companies. Beyond hands-on training, we expose trainees to nation-level attacker mindsets to prepare them for ever-evolving cyber threats.

CYBER APTITUDE ASSESSMENT

We help you build high-performing cyber teams by effectively measuring technical skills, cognitive abilities and culture fit through our platform.

EFFICIENT AND EFFECTIVE SELECTION

AI-POWERED SCREENING PROCESS

PROVEN METHODOLOGY

ONE-STOP ASSESSMENT PLATFORM

We address your most common painpoints by reducing the time, cost and manpower needed to build your organization's cyber teams. Our platform is customized to organizations and helps achieve better job fit through assessing candidates across various domains.

CYBER CAPACITY BUILDING

We co-create new cyber capacities for your organization with you, by tapping on our in-house expertise and extensive partnerships.

ADDRESS GAPS IN CURRENT SECURITY FRAMEWORK

ADVANCE YOUR CYBER CAPACITY

CLOSE MENTORSHIP FROM IN-HOUSE EXPERTS

We work closely with you to understand your organization's requirements before leading the development of an end-to-end program which addresses your cyber objectives. This includes building teams with the right expertise and setting up of necessary frameworks such as SOPs and TTPs.

CYBER RANGE EXERCISES

We develop and simulate nation-level cyber threat scenarios to push teams to the edge.

WIDE RANGE OF BLUE, RED AND PURPLE TEAM EXERCISES

MIMICS YOUR SECURITY STACK

FOCUSES ON TECHNICAL AND OPERATIONAL ASPECTS OF APT ATTACKS

DETAILED TRACKING AND ASSESSMENT

We specialize in cyber range exercises to help professionals evaluate their capabilities and deal with a wide range of nation-level attackers.

CYBER TALENT DEVELOPMENT PROGRAM

We offer an end-to-end program that provides organizations with trained cyber professionals to meet key manpower needs.

TALENT WITH NO PRIOR BACKGROUND ARE SELECTED

ROBUST SCREENING THROUGH PROPRIETARY PLATFORM

COMPREHENSIVE SKILLS TRAINING

ENHANCE YOUR CAPABILITIES WITH CYBER TALENT

We select, train and place high-aptitude individuals with no prior background into cybersecurity roles. With our robust proprietary assessment and comprehensive training pedagogy, trainees will be well-equipped to take on cybersecurity positions and enhance your organization's capabilities.

CASE STUDIES

CYBER ACADEMY FOR GOVERNMENT

DART built and developed a Cyber Defense training school for a military unit in Asia. Every cyber military personnel is trained by DART, numbering over 200 personnel each year. They fill a variety of operational positions such as Cyber Incident Response Team and Penetration Testing.

CYBER RANGE FOR CRITICAL INFORMATION INFRASTRUCTURE (CCI) SECTORS

DART created a 5-day exercise comprising cyber ranges that cater to the security stack of various CCI sectors, including Finance and Healthcare. Through the exercise, blue team responses to a nation-level attack spanning multiple CIIs were tested and reinforced in preparation for real-life cyber attacks.

CYBER APTITUDE ASSESSMENT FOR TALENT DEVELOPMENT

To solve the manpower crunch in the cyber industry, DART provided the proprietary aptitude assessment and training pedagogy for a cyber talent and development company. We assessed and evaluated more than 3000 candidates, accepting 2% of the applicants. Powered by DART's training, all accepted applicants were successfully placed with industry stalwarts like Accenture, EY and Kiteworks.
